

The Online Teacher Receipting (OTR) system is a fully integrated online school activity receipting system. OTR allows teachers and other school staff to process cash, check, and credit card payments from parents and students using a web browser from any location.

FEATURES and FUNCTIONALITY

Teachers and school staff can log into any computer with internet access and receipt cash, check, and credit card payments in-person for any activities including:

- School Activities
- Special Events
- Childcare
- Student Debts
- Tickets

Receipts are then grouped together for easy deposit into your activity fund accounting system providing a full audit trail. In addition, reports are available from within OTR to view all payments made for activities so teachers and school administrators can view their transactions.

OTR integrates with Online School Payments (OSP). This allows for parents the flexibility to pay for the same activities in-person or online and for teachers to view consolidated information from online and in-person payments

OTR is integrated with School Funds Online (SFO) from TRA School Software Solutions. Receipt Deposits automatically show in SFO with no need to re-enter in any data.
