

The Online School Payments (OSP) system is a fully integrated online school activity and cafeteria funds payment solution. OSP allows parents, students, and guardians to pay using a credit card, check card or e-check online using a web browser from any location, 24 hours a day.

FEATURES and FUNCTIONALITY

Parents can go online, view activities, add them to a shopping cart, check out and pay by using a credit card, check card, or an e-check. After payment is made, OSP will automatically send a receipt to the purchaser and subsequent email is sent to the Teacher/Sponsor of the activity notifying them that a payment has been received for a student.

The OSP system empowers school book keepers, staff sponsors or any authorized school representative to easily set up school activities, events and other collection related items online for purchase from within a standard web browser interface. After the activity has been submitted within OSP, a workflow approval process can be initiated to require multiple layers of approval prior to online activation.

The screenshot shows the 'Challenger Elementary - Online School Payment' website. The page title is 'Challenger Elementary - Online School Payment - Windows Internet Explorer'. The browser address bar shows 'http://estore.browardschools.com/OSP/BVModules/CategoryTemplates/D...'. The website header includes 'Broward County Public Schools Online School Payments' and 'Expand Your Mind And Your Future'. The navigation menu includes 'HOME', 'SIGN IN', 'YOUR ACCOUNT', 'CUSTOMER SERVICE', 'SEARCH', and 'VIEW CART'. The main content area is titled 'Challenger Elementary' and features a 'Select Activity' section with a table of activities.

- Search Fund Account: [Search]
- Fund Account: 001-232-39393
- Grade Level: 10th
- Course/Class: Washington Dc

Buttons: Update, Cancel

In addition, reports are available from within OSP to view online activities so teachers and school administrators can view their activity's transactions. Additional technologies have been implemented to provide a seamless integration with existing accounting solutions and cafeteria management systems using industry standard XML technology.

The OSP system requires no upfront costs to implement and it allows your schools to do much more for much less. Schools can be online within a matter of days without the expensive hardware, software and implementation costs that are often part of complex Information Technology initiatives. In order to provide these valuable services to your school system, OSMS charges a nominal percentage for each transaction to cover hosting fees, application support, maintenance and software enhancements.

Features List

- Accepts all major credit cards, check cards and e-checks
- Extensive reporting capability for teachers and sponsors to review online sales
- Each school district gets their own dedicated OSP web site with custom designs available
- Allows for a consolidated district view of all purchases made online
- Credit card payments are automatically deposited into the school bank accounts
- Very little training is required for book keepers and staff sponsors
- Activities can be setup to automatically go online and offline for sale reducing workload
- System allows parents to self register online just like any other ecommerce web site
- Parents can pay online, avoiding having their kids carry cash/checks to school
- Order histories are kept online so parents may view past purchases
- Minimizes workload in schools and reduces fraud
- Easy navigation to simplify shopping experience
- Teachers and sponsors can setup their own online activities and are emailed when payments have been made
- Developed with the latest web technologies and utilizes industry standard for external system integration
- OSP is hosted at a telco-grade Tier 1 collocation facility
